Patient Transport Services

ISO 14001:2015 ENVIRONMENTAL STATEMENT - 2017

St John Cymru - Wales Patient Transport Services (the 'Organisation') recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all legal requirements relating to the provision of patient transport services and related services to NHS and local community. "**A complete patient transport provider**".

It is the Organisation's declared policy to operate with and to maintain good relations with all regulatory bodies.

It is the Organisation's objective to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements and to continually improve environmental performance through the following:

1. Strive to adopt high environmental standards in all areas of the organisation.
2. Review and where possible reduce or remove environmentally damaging activities and to encourage activities that improve, or conserve the environment.
3. Adopt and aim to apply the principles of 'sustainable development'
4. To include environmental considerations in the organisation's investment decisions.
5. To continually assess the environmental impact of the organisation's activities.
6. To adopt an environmentally sound patient transport strategy.
7. Minimise the use of all materials, supplies, energy, and wherever possible to use renewable or recyclable materials and components.
8. To minimise waste and aim for 'waste-free' processes where possible.
9. To publicise the organisation's environmental position.
10. Encourage third parties involved with the organisation (e.g. suppliers, contractors, customers etc.) to work towards establishing similar standards themselves.

This Environmental Policy is communicated to all employees, suppliers and sub-contractors to encourage them to adopt sound sustainable management practices and is available to the public on request.

Signed:

Position: Chief Executive Officer
